

SPORTS RESEARCH

What is the aim of the research?

We would like to ask gender diverse young people aged 11 – 16 about their experiences of taking part in sport and physical activity. This can be sport you do inside school or outside of school, at any level. Questions will ask about what you do, have done, wish to do, as well as barriers and things which help, and questions on wellbeing.

How will this research be conducted?

This research is being undertaken as an anonymous, online survey. Young people can complete this in their own time and it should take no longer than 15 minutes.

Who can participate?

Anyone who aged between 11 and 16 years of age who identifies as trans or gender diverse.

**For more information on taking part, please email:
